ABOUT US

WE ARE THE COLLECTIVE

At The Collective we believe people are most alive when they are together. We're co-living pioneers who are fiercely passionate about creating happy, inspired communities that think and live big.

Co-living is a collective way of living that enables renters to share spaces, facilities, time and experiences together.

Our approach to co-living allows us to create large buildings with thriving communities. By living together at The Collective our members lead happier lives, share experiences, make new friends, and develop personally. They live in beautifully designed private spaces and share awesome amenities – think cinemas, gyms, spas, co-working spaces, bars and restaurants. We give it our all to provide the ultimate living service, so there's more time for, well, living. And because community happens when people connect, we curate events that spark meaningful shared experiences.
